

Cooperation for water sector in Saudi-Japan Vision 2030

YOSHIHARA Miho

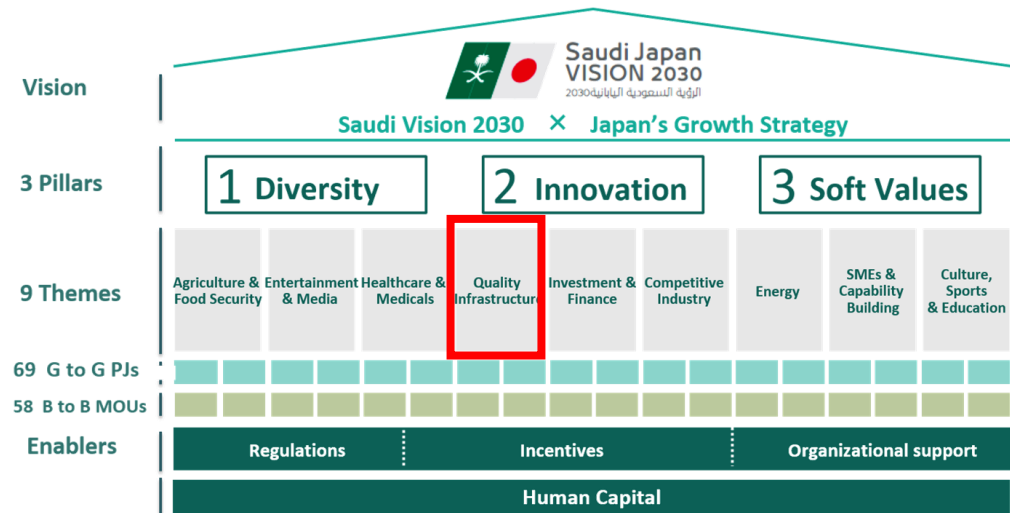

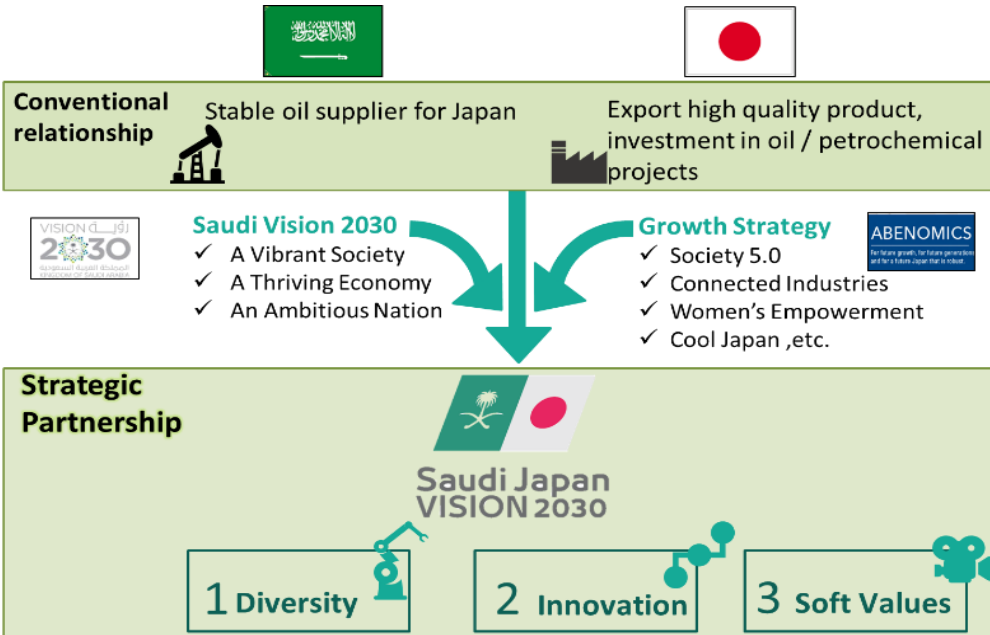

Director for Project Coordination

Office for Promotion of International Project, Infrastructure
System and Water Industry

Ministry of Economy, Trade and Industry (METI)

Overview of Saudi-Japan Vision 2030

- λ “Saudi Japan Vision 2030” was launched in March 2017, as a “Compass of new strategic partnership”.
- λ Under the 3 pillars of Diversity, Innovation and Soft Values, 9 themes cover a wide range of areas.
- λ Water sector is included in “Quality Infrastructure”.

Overview of Saudi-Japan Vision 2030 2.0 Updated

- λ Ministerial Meetings have been held four times, and nine rounds of sub-group meetings have been held.
- λ In October 2019, “Saudi-Japan Vision 2030 2.0 Updated” was announced which summarized the cooperation projects.
- λ As of today, 65 ministries and relevant entities from both countries are involved under Saudi-Japan Vision 2030.

Photos of Ministerial Meetings

Cooperative Activities for Water Sector

- λ MOC for the cooperation on water sector was signed between MEWA and METI in March 2017.
- λ Based on Saudi-Japan Vision 2030 and this MOC, Cooperative Activities for water sector have been implemented.

Examples of Cooperative Activities

Demonstration Project of Energy Saving Seawater RO System (Megaton Water Project)

Workshop for Water Sector with Japanese Strategic Partners

The joint project of pilot test on Brine Concentration membrane technology for brine management of seawater desalination

The Relationship between SAWEA and Japan

- λ SAWEA has participated in water business mission to Japan organized by JCCME. The Next mission is scheduled in June 2020.
- λ Japanese companies have participated in Water Arabia all times since its launch, and have exhibited at the Japan Pavilion booth every time.

Workshop about “Japanese Desalination Technologies” for SAWEA

Thank you
